

HOST:

*Blackhawk  
Chapter*

Illinois  
Association  
of the Deaf  
32nd Biennial  
Convention

June 17-19, 1983  
Moline, Illinois

You expect  
to pay more  
for  
quality,  
convenience,  
and reliability...  
but you don't have to.

Porta  
Printer  
Plus<sup>TM</sup>  
printer and display  
all in one.

**New design.** A 20 character thermal line printer and 20 character, 6mm, green vacuum fluorescent display are combined in a single, lighter weight (only 5 pounds), more compact machine using modern solid state electronics, single-chip microprocessor control, and the highest quality components.

**Quality engineering.** Designed by Krown Research engineers and technical support staff, the Porta Printer Plus is based on 10 years of research and development in printer and microcomputer technology and 7 years of TDD manufacturing engineering experience, and comes with a full one-year warranty.

**Softcopy/hardcopy.** May be used as a DISPLAY ONLY device or with DISPLAY AND PRINTER operating simultaneously, and is compatible with all TTYs and TDDs available to the deaf.

**Printer reliability.** The new line printer utilized in this unit is a proven printer mechanism used in over 3 million major brand-name computers and computer terminals currently on the market.

**Choice of display mode.** Characters move across the display screen in the traditional right to left walking mode . . . or, if you prefer, in a smooth left to right wraparound mode.

**Completely portable.** Comes in an attache-type carrying case with room for the A.C. Adapter/Charger and extra paper. May be used on A.C. power, or for 2-4 hours continuously on battery power, and can be recharged overnight.

**Easy to use.** With everything built into the machine, all you have to do is turn on the power and start typing.

**Options.** May be purchased with Dual acoustic hardwired (direct connect) capability, or with ASCII Code Format.

**\$ 575.00\***

\*Includes carrying case, internal rechargeable Ni-Cad battery pack, U.L. Listed A.C. Adapter Charger, 2 rolls thermal paper.

**KROWN RESEARCH, INC.**  
6300 Arizona Circle  
Los Angeles, CA 90045  
(213) 641-4306 Voice/TDD

800/238-5544\*

**Only One Hotel  
Chain Gives You A  
Toll Free TDD Number  
And A "No Excuses"<sup>SM</sup>  
Room Guarantee.**

Holiday Inn<sup>®</sup> hotels give you both, and we're as close as a TDD call. You'll get your choice of over 1,750 hotels, near the things you want to do. And every U.S. and Canadian Holiday Inn hotel offers you our exclusive "No Excuses" Room Guarantee.

So you know your room will be right. Or we'll make it right. Or you'll stay free that night. You'll find our written guarantee in every room, every night.

So next time you travel, let Holiday Inn hotels take good care of you. We give you a guarantee...not excuses.

\*VOICE, call 800/238-8000

**Holiday  
Inn<sup>®</sup>**

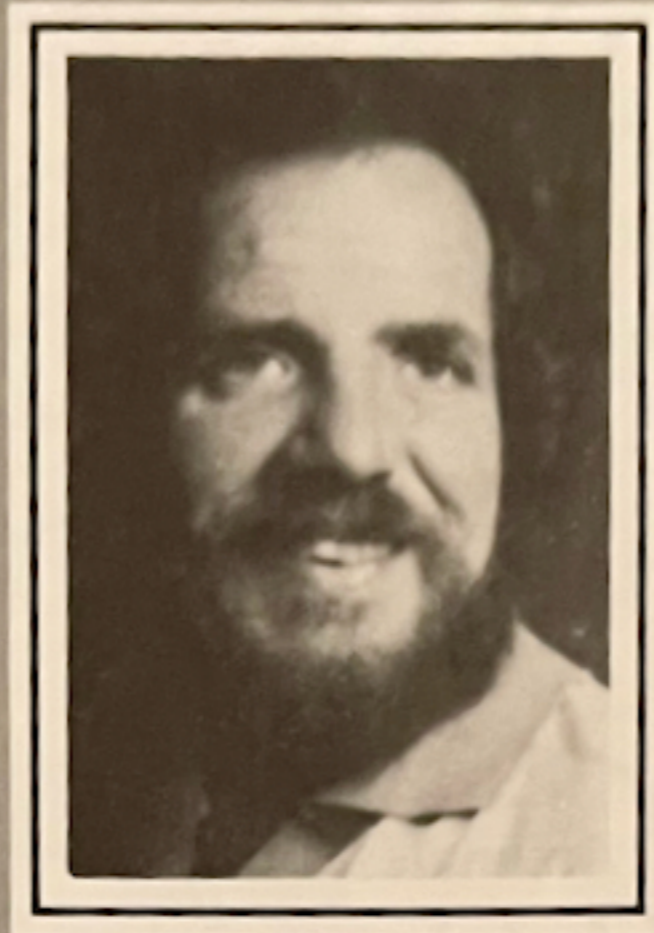

## Life in America

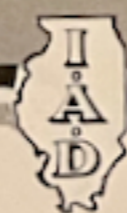

Deaf people are seen in every aspect of American life. As pictured on the cover, they are working in the home and in the fields. They are in education, the arts, technology and social activities. All are in the pursuit of happiness. That is our tradition.

# Dedication to Theodore Schultz

We are happy to dedicate this program book to  
Mr. Theodore Schultz  
who has been strong loyal support  
to Blackhawk Chapter for a few years.  
We want to confer this honor  
upon you because we have always felt sure  
of your interest in our Blackhawk Chapter.  
May we often renew our loyal support  
in the years to come.

Robert W. Anderson  
Mayor

STATE OF ILLINOIS  
**OFFICE OF THE GOVERNOR**  
SPRINGFIELD 62706

JAMES R. THOMPSON  
GOVERNOR

January 26, 1983

Greetings:

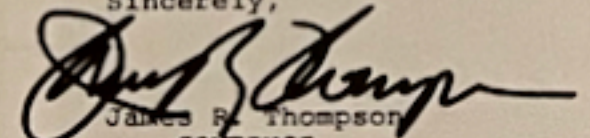

As Governor of Illinois, I am pleased to send greetings to everyone attending the 32nd Biennial Convention of the Illinois Association of the Deaf.

Eleanor Roosevelt said, "You gain strength, courage and confidence by every experience... You must do the thing you think you cannot do."

You have all shown that you have that courage, strength and confidence, and have learned to do things that not too long ago, would have not seemed possible for deaf people. I am proud to salute all of you.

On behalf of the more than 11 million people of Illinois, please accept my sincere best wishes for a most enjoyable convention, and the very best to all of you in the future.

Sincerely,

James R. Thompson  
GOVERNOR

JRT/bw

ROBERT W. ANDERSON  
MAYOR

**OFFICE OF THE MAYOR**  
MOLINE, ILL.

WELCOME TO MOLINE!

Moline is proud to be one of the Quad Cities hosting the Biennial Convention for the Illinois Association of the Deaf.

Moline and the surrounding metropolitan area boasts many fine eating establishments, shopping facilities and other entertainment for your leisure activities.

We know you will enjoy your stay in our area and hope you will return often.

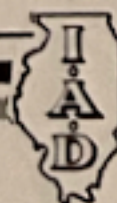

Best wishes for a successful 1983 convention.

Sincerely,

Robert W. Anderson,  
Mayor

Dear Members and Friends:

Welcome to the 32nd Biennial Convention of the Illinois Association of the Deaf.

Our Convention is being held in the Quad Cities for the first time. Your host, the Blackhawk Chapter, is a comparatively new Chapter and this is a big undertaking for them. Their spirit and enthusiasm, however, has brought them a long way and we applaud them for their initiative and desire.

Your Association also has been taking the initiative to seek a better life and climate for the hearing impaired of Illinois.

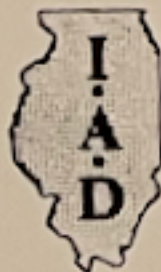

But rather than rest on past accomplishments, let us convene in a sense of anticipation of accomplishing even more.

Sincerely,  
Illinois Association of the Deaf  
Al Van Nevel  
President

Dear Members and Friends:

A big hearty welcome to all of you at 32nd Biennial Illinois Association of the Deaf Convention. Almost 60 years have come and gone by since the Quad-Cities had held the convention here in 1924. But it is our first convention that we the Blackhawk Chapter have given, since the Blackhawk Chapter was established in 1976.

Thanks to a fine hard-working convention committee, we hope you will find this convention pleasant and enjoyable. Also, thanks to the IAD officers, members, and friends, who have come to this convention, and to those who could not have made it, we thank you for the support of Illinois Association of the Deaf.

Sincerely,

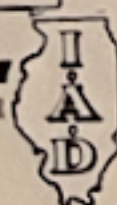

*Sheila Christensen*

# CONVENTION PROGRAM

---

## FRIDAY JUNE 17, 1983

2:00 PM	IAD REGISTRATION
3:00 PM	WORKSHOP AND EXHIBITIONS
7:00 PM	PRELIMINARY MISS DEAF ILLINOIS PAGEANT (If more than 10 entries)
8:30 PM	"OLD TIMES' SAKE" PARTY

## SATURDAY JUNE 18, 1983

8:00 AM	IAD REGISTRATION
9:00 AM	MORNING BUSINESS MEETING
12:00	LUNCH TIME
1:00	AFTERNOON BUSINESS MEETING
5:30 PM	COCKTAIL HOUR
6:30 PM	IAD BANQUET
8:00 PM	MISS DEAF ILLINOIS PAGEANT
10:30 PM	BAND AND DANCING

## SUNDAY JUNE 19, 1983

10:00 AM	SERVICES FOR THE DEAF BY FR. JAMES PARIZEK
11:30 AM	BRUNCH, OPTIONAL

---

## Illinois Association of the Deaf Accomplishments

- Created and maintained a Home for the Aged Deaf
- Defeated HB85 in 1961 which sought hearing tests for all drivers
- Placed representatives on State Committee on Hearing Impaired
- Instrumental in creation of Whitney Young High School Hearing Impaired Program
- Sign Language Book Donation Project
- Secured grant and administered Illinois Continuing Education Study for Adult Basic Education
- Sponsored annual exhibits at Illinois State Fair
- Sent representatives to White House Conference on Handicapped
- Disseminated information packets to members and friends
- Won rate reduction for intra-state TDD calls
- Publishes Service Directories
- Introduces legislation for benefit of hearing impaired
- Provides Advocacy services

# Miss Deaf Illinois Pageant

Valerie Jantz Pizzi

## VALERIE JANTZ

The first Miss Deaf Illinois pageant was held in Springfield in 1977, in conjunction with the Illinois Association of the Deaf Convention. The theme was "Shining Star." Valerie Jantz, Miss Deaf Illinois State University, was honored as our Miss Deaf Illinois. Anita Cervantes, the first running, represented Whitney Young High School. Joan White, representing Illinois School for the Deaf, was the second runnerup. Sandra Goldstein was the pageant director. Christopher Hunter was the master of ceremonies. As of now, Valerie is now a married woman and works at Hinsdale South High School.

Patrice Milford

## PATRICE MILFORD

The second state competition took place in St. Louis, Missouri, in 1979. Colleen Graham Potts, assisted by Betty Yman, coordinated the affair. The master of ceremonies at this pageant was Robert Anderson. Patrice Milford, Miss Cahokia Chapter of IAD, was chosen the winner. The first runnerup was Shirley Carlson representing Whitney Young High School.

Debbie Colon

## DEBBIE COLON

The third state pageant was held in Chicago in 1981. Again, Sandra Goldstein was the pageant director. The master of ceremonies was Jerry Strom, and the theme was "As Beautiful as a Rose." Debbie Colon is Miss Deaf Illinois, after Anita Cervantes relinquished the title to her, as she got married in late 1982.

Debbie is now in 2nd year at Gallaudet College, and she represented Miss Deaf Whitney Young High School.

*And something about the 1983 IAD PAGEANT DIRECTOR:*

## SANDRA GOLDSTEIN

Sandra Goldstein, a Chicago president, is the pageant director for this 4th Annual Miss Deaf Illinois Pageant. She is a mathematics teacher at Whitney High School in Chicago, besides being a math department chairperson for hearing impaired program, secretary to IAD Chicago Chapter, and director for the Miss Deaf WYHS pageant four times. Also she has been active with Jr. IAD for four years and Jr. NAD for ten years.

AND .....we all await to see who has 1983 Miss Deaf Illinois title!

Sandra Goldstein  
Pageant Director

# The Department of Rehabilitation Services

State of Illinois  
Department of Rehabilitation Services  
Robert W. Granzeler  
Director

Mr. Alan D. Christensen  
8002 7th Street West  
Rock Island, Illinois 61201

Dear Mr. Christensen:

The Department of Rehabilitation Services wishes the Blackhawk Chapter of the I.A.D. much success in hosting the 1983 Convention. For many years, DORS, previously DVR, has enjoyed a good relationship with the hearing impaired citizens of Illinois. In 1943, Dr. Arthur L. Roberts, then President of the FRAT, helped pass a bill in the Illinois General Assembly to provide a special appropriation to pay for two consultants in DVR and their secretaries to help deaf people find jobs. In 1950, the role of consultant became that of Rehabilitation Counselor for the Deaf (RCD). In 1954, there were two RCD's both in Chicago. In 1956, DVR hired its first hearing impaired person to work as a counselor to help deaf people find jobs. In 1964, DVR created a new position to better serve the needs of the hearing impaired and help them with job placement. This new position was Statewide Coordinator for the Deaf (SCD). In 1979, DVR became DORS, and in 1981, the Division of Services for the Hearing Impaired was begun. Each step in DORS history has led to providing better services to the hearing impaired, especially services which result in job placement and employment. Last year, over 2900 hearing impaired people received services from DORS and nearly 500 deaf and hard of hearing people were placed into jobs or retained in jobs through DORS assistance. DORS is proud to be a part of your history, your present and your future.

We do wish you good luck in hosting the convention.

Sincerely,

A handwritten signature in cursive script that reads "Charles W. Martin".

Charles W. Martin  
Manager, DSHI

# Illinois School for the Deaf

*Illinois School for the Deaf, Jacksonville, Illinois.*

*William P. Johnson, Ph.D., Superintendent  
Jacksonville, Illinois 62650*

The Illinois School for the Deaf (ISD) provides comprehensive educational, child care, and related services for individuals, with severe hearing impairments who are not served appropriately in their local school system. ISD works with the local school district, parents, and other interested groups to develop appropriate programs for each student.

Individual educational programs are developed for all students, who range in age from 0 to 21 years. Many alternative programs are available for the students, under highly qualified teachers. Programs such as gifted, academic, vocational education, general, and daily living skills are offered. The educational program is recognized by the Illinois State Board of Education, the Conference of Educational Administrators Serving the Deaf, and the North Central Association of Colleges and Schools.

The philosophy of the school has long centered around "total programming." That is, the after school activities are important, too. ISD has over 35 extracurricular activities for the students to participate in. Often these are as important as the classroom learning experiences.

The Illinois School for the Deaf has long provided leadership, nationally and in Illinois, for all educational programs for the deaf. Many innovative programs and services have been developed over the years to meet the needs of deaf children. Some examples of such leadership are: the speech/rhythm program; the manual communication assessment tapes; the cooperative education program; social hygiene program; the Transition Program; accelerated classes; and the Parent Infant Institute.

# Skills, Inc. Hearing Impaired Program

Skills, Inc. Hearing Impaired Program has designed a vocational assessment services unit, vocational adjustment services unit and training services units to accommodate the special needs of the deaf and hard-of-hearing. All services are accessible through appropriate modifications and/or interpreting. The concept of total communication is utilized.

Hearing impaired persons that have a vocational handicap limits or prevents them from obtaining and/or retaining employment would be appropriate referrals for these services. There must be evidence of some potential that, after receiving comprehensive rehabilitation programming, the person would be able to obtain gainful employment. Prospective referrals must not be considered dangerous to themselves or others. The usual age group served is 16 years or older. Various community, regional and state agencies are referral sources. Sponsorship to Skills, Inc. normally occurs through state vocational rehabilitation agency. Skills, Inc. has negotiated a level of funding contract with the Illinois Department of Rehabilitation Services. Other sponsoring agents would be considered.

Initially, an intake interview and a tour of the facility is scheduled to determine the person's interest and appropriateness for programming. Following the interview, the initial programmatic process is to provide a vocational assessment. This assists in clarifying, identifying and recognizing vocational skills and capabilities, as well as, vocational limitations. At the completion of this assessment, individual recommendations are developed and discussed. If it is determined that further Skills' services would

be appropriate a referral is made to that particular service unit. If it is determined that other community services would be appropriate, the person would be given assistance.

The vocational adjustment services unit has developed to provide various services to modify or diminish identified behaviors and/or attitudes that have or may prevent a person from obtaining and retaining employment. Established departments within the production area utilized for situational assessment are: machine operations, assembly, packaging, painting and metal work.

The training services units have been designed to provide individual and classroom instruction, as well as, practical application in four special training areas. Duration of the training, in each area is dependent upon the person's performance. Although, there are established maximum program weeks for each program flexible time frames must be considered in order to accommodate individual needs and programs.

Skills, Inc. provides placement assistance for persons who successfully complete our program. The technique of "matched placement process" is utilized where needs, interests and abilities are coordinated in providing selective placement assistance. A year follow-up and supportive services are provided and designed to assure smooth transition into competitive employment and to resolve future problems that may occur. During the '81 fiscal year Skills, Inc. Hearing Impaired Program has placed 65% of their participants. Community education services provided by the Hearing Impaired Program have included: instruction, counseling, deaf awareness, employer and community awareness, interpreting, sign language classes and workshops for other community agencies.

There is an intensive staff commitment observed by the active and on-going participation in in-service training in deafness enabling us to provide high quality of services to meet the special needs of the hearing impaired population. Program creditability has been recognized by the percentage of successful placements, the number of community and state agencies consulting Skills, Inc. Hearing Impaired Program regarding deafness and our three year accreditation through the Commission on Accreditation of Rehabilitation Facilities. Skills, Inc. Hearing Impaired Program is dedicated, enthusiastic and qualified to serve the hearing impaired.

For further information regarding the Skills, Inc. Hearing Impaired Program, please contact the Coordinator of Deaf Services, Michael Murphy, Skills, Inc., 1122-5th Avenue, Moline, Illinois 61265. Voice/TTY (309) 797-3586.

## Services Provided by Hearing Impaired Program

### Vocational Assessment Services.

*Duration of assessment usually 4 to 8 weeks*

Psychometric Testing  
Work Samples  
Production Situational Assessments  
Vocational Testing  
Job Awareness/Vocational Exploration

### Vocational Adjustment Services.

*Duration of adjustment services usually 26 to 36 weeks.*

Individual/Group Counseling  
Behavior Modification Programming  
Production Situational Assessments  
Personal Adjustment Counseling  
Human Sexuality

### Training Services

Clerical  
Sales Merchandising

### Food Service

Custodial/Building Maintenance

### Established Maximum Program Time Frames

24 weeks  
Selling-15 weeks  
Bookkeeping-24 weeks  
Commissary-36 weeks  
36 weeks  
16 weeks

### Adult Basic Education.

*Special modifications in curriculum materials and instruction techniques have been implemented to meet the need of the hearing impaired.*

GED  
Job Seeking Skills  
Grooming and Hygiene  
Budgeting/Financial Management

### Independent Living Instruction

Driver's Education (Material for written exam covered, behind the wheel instruction not provided.)

### Placement Services

On-the-job evaluation  
On-the-job training  
Selective competitive placements

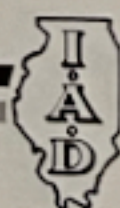

### Community Work Services

Housing Assistance-done on an individual basis. Financial responsibility that of the sponsoring agency or the referred individual.  
Mobility Training  
Assist with necessary appointments

### Interpreting Services

Consultant Psychological Services

Consultant Social Work Services

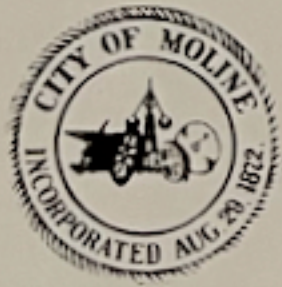

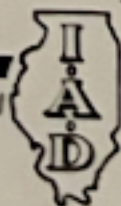

# City of Moline, Illinois

*City of Moline Emergency Center.*

The Moline Police Department has operated the TDD for approximately seven years. The original TDD was given to the Police Department free of charge from Western Union. That TDD was a big, cumbersome piece of equipment that had to be inconveniently placed across the room from the radio console. The new model, which has been in operation for approximately one year, is compact enough to sit on top of the radio console within an arm's reach of the dispatchers. The Radio Room averages two to three calls daily. Approximately sixty-five to seventy percent of the calls are wrong numbers. This is caused simply because people are not reading the phone book properly. Very few of the calls could be classified as emergencies. The majority of the calls are general. The dispatchers help make doctor appointments, call repairmen, notify the phone or gas and electric company when service has been interrupted, calling employers when there is an illness, et cetera.

# Moline Public Library

Moline Public Library is an important community center for education and entertainment. During fiscal year 1981-1982 the library loaned over 350,000 items to its users. These materials are selected with community needs and interests in mind. For example, the library recently established a "Job Seeker's Information Center" to assist the many unemployed people in the area. The library's collection includes books, magazines, newspapers, art prints, films, and records. Most of these materials are

visual and fully accessible to deaf library users.

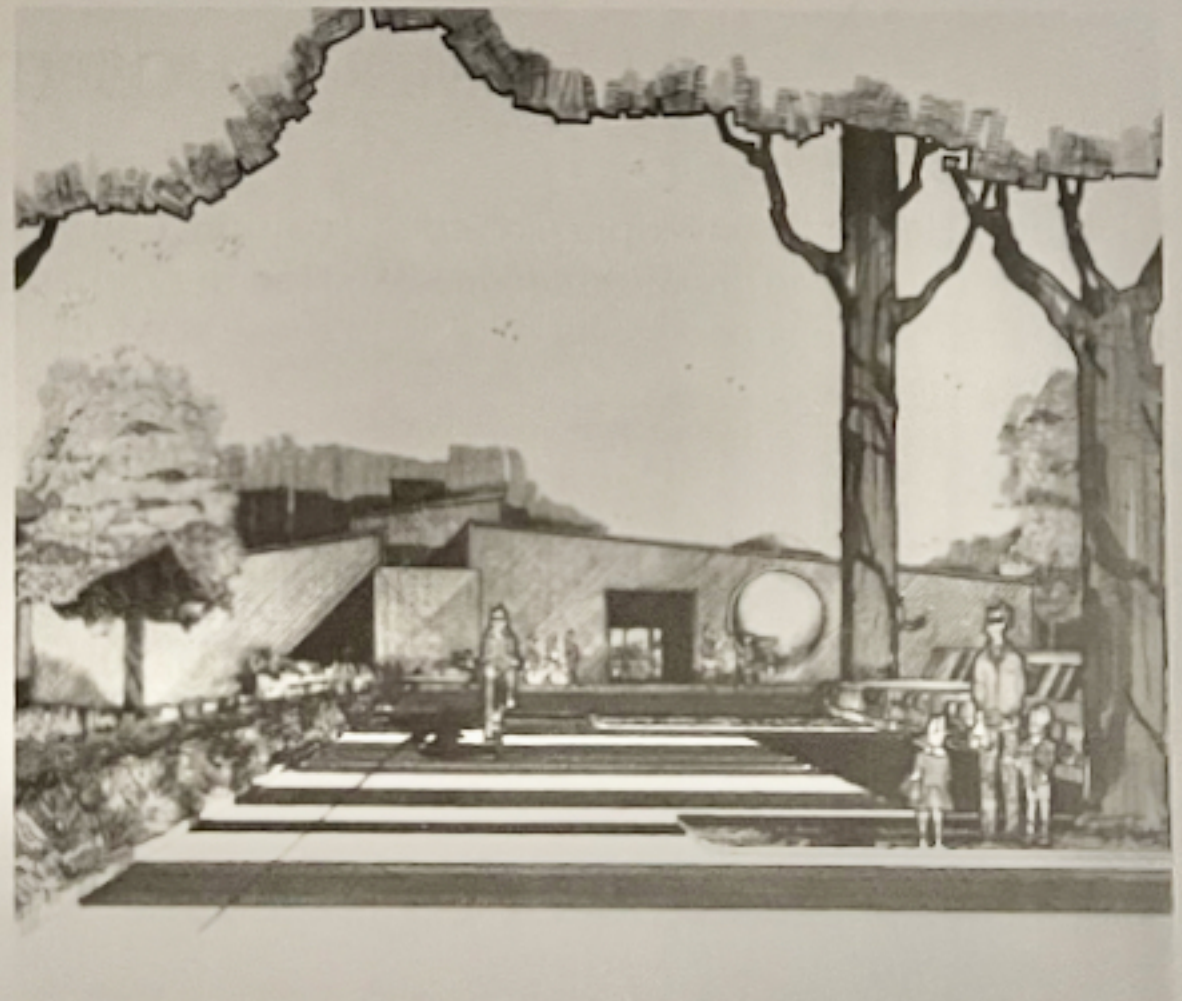

The library's reference staff helps users to find what they need. This is not always easy in a large collection that includes over 144,000 items in book format alone. Deaf library users are encouraged to submit written questions to the reference staff when they need assistance. For information that can be communicated in a telephone call, deaf library users may call the library's TTY at 762-0239.

The Main Library at 504-17th Street and

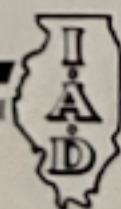

new Southeast Branch Library at 3130-41st Street are the two primary service locations for Moline Public Library. Both Libraries are open 67½ hours per week for user convenience. Those unable to visit either library may find that the library's Bookmobile stops at a nearby location. Homebound library users are encouraged to take advantage of the library's Books on Wheels home delivery service. Suggestions for ways to further improve and extend services are welcomed by the library staff.

*Moline Public Library, 504-17th Street, Moline, Illinois 61265.*

# Lend Them Your Ears/Mercy Hospital

---

## LEND THEM YOUR EARS

by TTY CENTER  
at  
Walsh Hall  
Marycrest College  
Davenport, Iowa  
(319) 326-9251

---

The TTY Center is so-called because it uses an old Western Union teletypewriter with a hard-copy print-out. It is a volunteer telephone-teletypewriter answering service for the Quad Cities deaf community. The Center originated on October 29, 1979 at Marycrest College by Sister Maria Trinitas, the Center director. The TTY Center is a vital part of the QCDCC (Quad Cities Deaf Communication Center), an incorporated organization of hearing and non-hearing members working together for the purpose of improved communications between the deaf and hearing communities of the Quad Cities. Calls are relayed, for example, to doctors, dentists, visiting nurses, lawyers, interpreters, hairdressers, banks, airports, department stores, garages, etc. Likewise, volunteers may make calls

for local hearing people to members of the deaf community, e.g., to inform them that an item ordered is ready to be picked up, perhaps at a department store or bakery. The Center also handles friendly calls between deaf individuals and their hearing friends or relatives. The TTY Center volunteers are mature, generous individuals interested in helping our deaf community to be a more integral part of our total community. The TTY Center is financed through the generous contributions of the individuals and groups in the Quad Cities. According to the most recent census, there are approximately 500; over 200 on each side of the Mississippi River. There are approximately 90 deaf individuals who make use of the Center answering services.

---

## MERCY HOSPITAL, DAVENPORT

Mercy Hospital, Davenport, offers a variety of hearing impaired services for the community and for its patients.

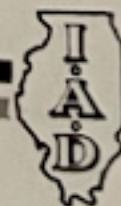

First, is the hospital's TTD-equipped Crisis Line. By dialing 383-1909, the TTD can be used to communicate with one of the hospital's trained mental health/crisis intervention personnel.

Mercy also provides specially equipped telephones, a TTD, and interpreters for the deaf to any patient needing such services. The hospital's nursing staff works in

conjunction with the Speech and Hearing Department in arranging these services.

As part of the hospital's overall services for emergency, acute, mental health, alcohol rehabilitation, and physical rehabilitation programs, the Speech and Hearing Department employs four full-time professionals. Ron Bear heads that department, and can be contacted for special arrangements or assistance (383-1499-not TTD equipped).

# Chapter and Division

## BLACKHAWK CHAPTER

Blackhawk Chapter was established on January 24, 1976 with the officers as, President-Buddy Huntley, Vice-President-James DuBois, Secretary-Elizabeth Huntley, and Treasurer-Alan Christensen.

This chapter has taken up many events, such as picnics, Crazy Bowl, spring banquet, captioned films. The big one is a Pig Roast Picnic and Camping during Memorial Day Weekend, which the late Theodore Schultz was the chairperson. He had the strong effect to keep it going and he will be remembered for us to carry on.

This is the first time for the Blackhawk Chapter to be the host for 32nd Biennial convention since 1924, and our Chapter is in cooperation with the Board ever since.

## DAVENPORT DIVISION #59

of National Fraternal Society of the Deaf

The Davenport Division #59 was founded and chartered by 16 members on December 1916. George Brasher, as the founder, was the first president. It was rumored that he was the Rock Island County tax assessor and was well known.

This division stands out as the oldest hearing impaired organization in the Quad Cities. The largest was forty-four members as brothers and sisters at one time.

## Keys to Convenience.

Cybertech proudly introduces the Comm-One, the Comm-Plus, and the completely new Comm-Print series of small-size, low-weight telephone devices for the deaf (TDD's). With this new system you can effectively increase your communications range. If you presently own a TTY machine, or a personal computer, Cybertech can help you access the growing TDD network with two new Couplers.

Cybertech TDD's enable you to easily converse with family and friends. The expanding TDD network will allow you to access a growing number of stores and services, all merely a phone call away.

Cybertech has responded to user needs with new features such as a 2000 character continuous memory and three programmable emergency message files. Options now available include an 8-hour external battery pack, a shock resistant travel case, and

a telephone ring detector/flasher with remote features.

Cybertech has worked closely with the deaf and their organizations in an effort to provide performance and reliability as well as good value. An example of this is the upgrading program which will allow users to have their TDD's modified to incorporate new features and developments as they

are presented. In this way, the most basic Comm-One can be expanded to include all present and future developments including an amazing voice output module.

Cybertech, so in touch with today, so in tune with tomorrow.

All Cybertech products are guaranteed for one year, parts and labour included.

COMM-ONE \$285.00  
COMM-PLUS \$445.00

COUPLER (TTY/ASCII)  
Model A: \$175.00\*  
Model B: \$275.00\*

COMMPRINT-PLUS \$475.00  
COMMPRINT-ONE \$625.00

# “VISUAL EAR”

let's the hearing & speech impaired  
communicate quickly and easily  
over the telephone

## OPERATES ON ELECTRIC POWER OR BATTERIES

The visual ear, plugs into any normal electric outlet or, if away from an outlet, using a public telephone for instance, visual ear's built-in rechargeable batteries power the unit.

## EASY TO OPERATE

All you do is to place the telephone hand set on the acoustic coupler pads built into the visual ear, dial the person you want to reach, and you are ready to talk.

With a Visual Ear and a regular telephone it is easy for you to call others equipped with Visual Ear or who have access to an existing teletype (TTY) or telephone device for the deaf (TDD).

**Need assistance? Contact your Northern Telecom Distributor or:** Northern Telecom, Spare Parts and Special Products  
P.O. Box 2110, Dept. 5450, St-Laurent, Quebec, Canada H3C 3A7 — (514) 747-5551 ext. 5203 — TWX 610-421-3624

## CLEAR VISUAL DISPLAY

The visual ear has a standard teletypewriter keyboard layout and visual display with illuminated letters, where incoming and outgoing messages appear.

## RECORD CONVERSATIONS

You can record your conversation (local laws permitting) by attaching a tape recorder or printer to the unit.

## PORTABLE & LIGHTWEIGHT

Because its lightweight, compact and contains its own portable power supply, visual ear is easy to take anywhere with you.

# Give us a call

# GALLAUDET

*—an independent institution of higher education serving deaf people through...*

- **Pre-College:** This division encompasses the Kendall Demonstration Elementary School and the Model Secondary School for the Deaf, which serve deaf children (birth to 18) and their families. For Kendall School call: 651-KDES, for MSSD call: 651-5801.
- **College:** Students may work toward the Bachelor of Arts or Bachelor of Science degree in over 25 areas of study in the College of Arts and Sciences, the School of Education and Human Services, or the School of Communication. The Admissions Office number is 651-5114.
- **Graduate School:** Graduate programs are open to both deaf and hearing students. Degree programs are offered at the master's level in a growing number of fields and at the Ph.D. level in special education administration. Call: 651-5069 or call the Admissions Office.
- **Research:** Gallaudet's mission statement includes the goal that Gallaudet will greatly expand its commitment to basic and applied research and seek to become a major research facility specializing in the problems of deafness. Research projects in a variety of areas are currently being pursued. The number for the Research Institute is 651-5030.
- **Public Services:** This division includes the College for Continuing Education, the National Academy, the Gallaudet Press, and the National Center for Law and the Deaf. The general number for Public Services is 651-5592.
- **Alumni and Public Relations:** This office serves all of Gallaudet in providing publication and public relations assistance, as well as serving Gallaudet alumni with a variety of programs. *Gallaudet Today*, the College's quarterly magazine, is available by subscription at \$5.00 in the U.S. and \$7.00 elsewhere per year; *Preview*, the Pre-College magazine, and the *Gallaudet Alumni Newsletter* are available at no charge to interested persons. The National Information Center on Deafness — 651-5109 — or the Gallaudet Visitors Center — 651-5100 or TDD 651-5104 — are important aspects of the services offered by the A/PR office.

Unless noted otherwise, all numbers are both voice and TDD (TTY). The area code for all phone numbers at Gallaudet College is 202.

***If we can help you in any way, give us a call!***

Of course, you can also write to us. Our address is Gallaudet College, Kendall Green, 7th Street and Florida Avenue, N.E., Washington, D.C. 20002.

# PCI Sentry<sup>TM</sup> Visual Alert Systems give you a choice

## Good ONE PCI SENTRY MONITOR

Don't miss another telephone call (TTY/TDD) from your family or friends! All you need is a PCI Sentry telephone monitor . . . just one unit. You simply plug the telephone monitor into a wall outlet and a local lamp plugs into the back panel of the PCI Sentry telephone monitor. Position the monitor close to your telephone and it is now being monitored for incoming calls.

When your telephone rings, the local lamp will flash as the PCI Sentry monitors the telephone ring signal. You then merely answer the phone. The PCI Sentry telephone monitor can be hooked up with a pick-up coil or direct connect. This is a good system.

## Better ONE PCI SENTRY MONITOR PLUS REMOTE LAMP MODULES

A better PCI Sentry system uses just one telephone monitor plus any number of Remote Lamp Modules as a low-cost, portable receiver. The Remote Lamp Module is light-weight and can be used in any room or remote area such as a basement or garage.

The function of the Remote Lamp Module is to receive signals from the PCI Sentry monitor. When the monitor picks up the ringing telephone signal, it flashes the local lamp and then sends a signal to the Remote Lamp Module. Both the local and remote lamps flash and this visually alerts the person in another room that the telephone is ringing. Any number of Remote Lamp Modules can be used with a single PCI Sentry monitor.

This is a better system.

## Best PCI SENTRY CENTRAL RECEIVER PLUS UP TO EIGHT FUNCTION MONITORS

The best PCI Sentry visual alert system uses a central receiver and up to eight function monitors. This central receiver alerts you, at a glance, to events such as telephone ringing, baby crying, front and rear doorbells, smoke and sound alarms. This PCI Sentry system can monitor just about every need in your house or apartment.

When a monitor sends a signal to the central receiver, a red light will be illuminated identifying the function that has been activated. Both the local and remote lamps will also flash.

PCI Sentry has a paging capability. If your spouse is in another room, all you have to do is push the page button and the remote lamp will flash alerting your mate that he is wanted by you. All PCI Sentry monitors have this paging capability as a standard feature. This is the best system.

## WHATEVER YOUR VISUAL ALERT REQUIREMENTS . . .

PCI Sentry offers the versatility of choice . . . a good . . . a better . . . and the best visual alert system available on the market today. The system can be expanded at any time. It is not affected by the operation of any household appliance and does not require any wiring between monitors and receivers. Choose the one that fits your needs . . . but make sure you choose PCI Sentry.
